

RxMen Discovery Call Copilot

Common Wrong Explanations - DO NOT USE

Purpose: Train AI to avoid phrases that harm conversion, medical accuracy, or user trust.

INSTRUCTIONS FOR TEAM

How to Fill:

1. **Root Cause Column:** With which root causes are these phrases being linked to?(enter multiple if that's the case).
Add any other comments/observations/feedbacks if any
2. **Wrong Explanation Column:** Exact words you've heard agents say that DON'T work
 - Use actual Hinglish/English phrases
 - Include objection responses that failed
3. **Correct Replacement Column:** What should be said instead
 - Medically accurate
 - Simple language
 - Builds trust
 - Boosts Sales

Goal: entries covering most common mistakes

#	 WRONG Explanation (Exact Phrase Agents Say)	 CORRECT Replacement (What to Say Instead)	Root Cause or Comments
1	"Aapke nerves weak ho gaye hain."	"Stress aur anxiety se blood flow temporarily affect hota hai, jo completely reversible hai."	Psychological ED

2	“Aapka testosterone zero ho gaya hai.”	“Kabhi kabhi testosterone slightly kam hota hai. Pehle evaluation karte hain, phir lifestyle, sleep, weight, aur zarurat ho to doctor guided treatment se theek hota hai.”	Hormonal ED
3	“Sab dimaag mein hai.”	“Dimaag aur body dono connected hain, stress physical impact karta hai.”	Performance Anxiety
4	“Tension mat lo, sab theek ho jayega.”	“Tension natural hai, hum uska scientific solution step by step dekhte hain.”	Dismissive reassurance
5	“Blood supply band ho gayi hai permanently.”	“Blood flow kabhi temporary aur kabhi vascular health ki wajah se affected hota hai. Hum cause identify karke uska targeted treatment karte hain.”	Vascular ED
6	“Masturbation se nerves kharab ho gayi hain.”	“Tight grip ya high frequency se sensitivity kam ho sakti hai, jo training se theek hoti hai.”	Prone or Tight Grip Habit
7	“Porn dekhne se power chali gayi.”	“Excessive porn se arousal pattern shift ho sakta hai. Hum arousal retraining, stimulus control, aur gradual reset sikhate hain.”	Porn Induced ED
8	“Sperm kam ho gaya hai isliye erection nahi hoti.”	“Sperm count aur erection lag processes hain.”	Confusing fertility with ED
9	“Aapka stamina khatam ho gaya hai.”	“Body fatigue mode mein hai. Hum cause check karte hain jaise sleep, stress, aur hormones.”	Fatigue or Burnout

10	“Aapka timing weak hai, dawai lena hi padega.”	“Timing control ke liye behavioural techniques, pelvic floor training, topical options, aur doctor guided medicines available hain. Hum aapke case ke hisaab se plan banayenge.”	Premature Ejaculation
11	“Semen patla hai, power kam hai.”	“Semen thickness fertility se related hai, performance se nahi.”	Semen Myths
12	“Age ho gayi, ab kya kar sakte ho.”	“Age ek factor ho sakta hai, par ED treatable hota hai. Pehle cause evaluate karte hain, phir personalised plan banate hain.”	Age Related ED
13	“Stress lene se testosterone gir gaya.”	“Chronic stress hormones pe effect karta hai, par reversible hai.”	Stress Hormonal
14	“Aap zyada soch rahe ho.”	“Performance ke time overthinking common hai. Hum relaxation aur focus techniques sikhate hain.”	Performance Anxiety
15	“Aapka sperm leak ho gaya hai.”	“Jo aapko leakage lag raha hai woh kabhi kabhi normal pre ejaculate hota hai. Agar discharge, burning, ya smell ho to prostatitis ya infection rule out karte hain. Doctor check karega.”	Misinterpreted Discharge
16	“Khaana kharab hai, isliye problem hai.”	“Nutrition ek factor hai, par stress aur sleep bhi equally important hain.”	Oversimplification

17	"Nerves block ho gayi hain."	"Blood vessels aur nerves dono repair ho sakte hain. Hum dono assess karte hain."	Physical ED
18	"Sirf tablet hi solution hai."	"Tablet madad karti hai, par asal solution cause pe kaam karna hai. Hum skills, lifestyle, aur zarurat par medicine combine karte hain."	Overprescription
19	"Nightfall se kamzori aa gayi."	"Nightfall ek normal process hai. Body sperm renew karti hai."	Semen Myths
20	"Aap addicted ho gaye ho masturbation se."	"Habitual pattern develop hua hai. Hum habit retraining, urge management, aur structured routines sikhate hain."	Habitual Behaviour
21	"Mardangi chali gayi."	"Yeh condition treatable hai, permanent nahi."	Stigma
22	"Partner se attraction khatam ho gaya."	"Mental fatigue aur anxiety se arousal affect hota hai."	Relationship Stress
23	"Sperm kam hone se timing kharab hoti hai."	"Ejaculation sperm count se linked nahi hoti."	PE Myths
24	"Blood thin hai, erection nahi hoti."	"Erection blood flow aur vessel response par depend karti hai. Kuch medicines effect daal sakti hain. Hum aapki list review karke safe plan banate hain."	Misinformation

25	"Sleep ka farq nahi padta."	"Sleep testosterone aur stamina dono pe impact karti hai."	Lifestyle ED
26	"Tablet lene se aadat lag jaati hai."	"In medicines se dependency nahi hoti. Doctor screening, correct dose, aur duration decide karta hai, aur zarurat par band kar sakte hain."	Medication Myths
27	"Hormone test normal hai toh dimaag mein problem hai."	"Hormones normal ho sakte hain, phir bhi circulation, nerves, stress, aur relationship factors role play karte hain. Hum in sab ko assess karte hain."	Mind Body Disconnect
28	"Aapka case bahut serious hai."	"Har case unique hai, systematically treatable hai."	Fear Based Sales
29	"Sperm zyada nikla toh kam ho jaayega."	"Body sperm daily banati hai, koi fixed limit nahi."	Semen Myths
30	"Shadi ke baad sab thik ho jaayega."	"Agar abhi problem hai, toh shadi ke baad stress badhega. Better hai pehle address karein."	Denial
31	"Performance se pehle dawai le lo, bas."	"Kabhi kabhi on demand medicine sahi hoti hai, par mind body skills bhi zaruri hain. Dono ka plan doctor banayega."	Overreliance on Pills
32	"Exercise useless hai."	"Exercise se circulation aur hormones dono improve hote hain."	Lifestyle Neglect

33	"Sex ke liye strong hona zaruri hai."	"Pleasure, comfort, aur relaxation important hote hain. Strength se zyada arousal aur connection matter karte hain."	Cultural Myths
34	"Masturbation se energy chali gayi."	"Energy loss nahi hota, bas conditioning badal jaati hai."	Semen Anxiety
35	"Aapka blood pressure high hai isliye hopeless hai."	"BP control karne se performance better hoti hai. Agar koi medicine effect daal rahi ho to doctor safer alternative suggest karega."	Hypertension Related ED
36	"Sugar high hai toh kuch nahi ho sakta."	"Diabetes control se endothelial function, nerves, aur testosterone balance better hote hain, jisse erection improve hoti hai."	Diabetic ED
37	"Psychiatrist ke paas jaoge toh pagal bolenge."	"Mental health check up normal health check up jaisa hi hota hai. Yeh aapki recovery fast karta hai."	Mental Health Stigma
38	"Aapka problem normal nahi hai."	"Yeh common aur treatable issue hai. Hazaron log isse guzarte hain."	Shame Language
39	"Aap weak ho gaye ho sexually."	"Temporary dip hai, recovery possible hai."	Confidence Erosion
40	"Pehle enjoy kar lo, baad mein doctor dekhenge."	"Delay se kuch cases chronic ho sakte hain. Behtar hai jaldi assess kara lein taaki recovery fast ho."	Neglect or Delay

41	"Tablet khali pet lo, jaldi kaam karegi."	"Medicine ka timing molecule par depend karta hai. Sildenafil empty stomach par better kaam karta hai, tadalafil food se farq kam padta hai. Doctor aapko exact instructions dega."	Unsafe Advice
42	"Dawai lene se kidney kharab hoti hai."	"Correct screening aur dose ke saath ED medicines safe hoti hain. Kidney ya liver issues mein doctor dose adjust karta hai."	Misinformation
43	"Bas willpower se control lo."	"Willpower ke saath structured training zaruri hai."	Unrealistic Expectation
44	"Relationship sudhar jaayegi agar sex sahi ho gaya."	"Sex aur emotional connection dono parallel improve karne hote hain."	Relationship Overpromise
45	"Hormone test kara lo, sab pata chal jaayega."	"Hormones important hain, par har kisi ko full panel ki zarurat nahi. History ke hisaab se targeted tests karte hain."	Oversimplification
46	"Dawai sab same hoti hain."	"Har medicine alag mechanism se kaam karti hai. Personalised dose zaruri hai."	Generic Misbelief
47	"Tablet lene se life long lena padega."	"In medicines par aadat nahi padti. Aap need based use kar sakte hain, aur jab zarurat na ho to band kar sakte hain. Doctor aapko duration aur frequency guide karega."	Fear of Dependency

48	“Aapka sperm ulta flow kar raha hai.”	“Retrograde ejaculation rare hota hai. Confirmation post ejaculation urine test se hota hai. Pehle test karke hi decide karte hain.”	Pseudo Science
49	“Partner ka mood kharab hai, isliye ED hai.”	“Partner dynamics ek factor hain, par body aur stress bhi role play karte hain.”	Relationship Blame
50	“Sex karne se diabetes theek ho jaayegi.”	“Sexual activity healthy hai, par diabetes medication aur diet se manage hoti hai.”	False Health Claim

HOW AI WILL USE THIS

During Explanation Generation:

1. AI identifies root cause (e.g., Performance Anxiety)
2. AI checks table for that root cause
3. AI avoids all ❌ phrases for that condition
4. AI uses patterns from ✅ replacements

Example:

Root Cause Identified: Performance Anxiety

AI checks table:

❌ Don't say: "nerves weak"

❌ Don't say: "sab dimaag mein hai"

❌ Don't say: "tension mat lo"

✅ Use patterns like: "stress response → blood flow change → reversible"

VALIDATION

Before submitting, ensure:

- [] At least 25-30 wrong explanations documented
- [] Mix of all root cause types (ED, PE, hormonal, etc.)
- [] Includes objection handling mistakes
- [] Correct replacements are medically accurate
